Model	Pump	Grinder	Water connection	Total power	Dimensions HxDxW	Shell
DD2TRRRL	Rotating	yes	Water line	4100 W	580x415x753	Shiny stainless steel
DD2TRRRL	Rotating	yes	Water line	4100 W	580x415x753	Star stainless steel

This machine is available only on request, given the peculiarity of its shape similar to a locomotive. The particularity of the design does not reduce the quality of the coffee machine, which presents the same characteristics of DD2 Eco-Power model.

DD2 Eco Power Locomotive is the founding model for the whole family stile. Models are numbered and characterized by an amateurish work of great importance. This honours the beauty of these complex and always charming machines and a manufactured product from human engine that has been able to use at most the quality of a big boiler, water and power of steam.

This model is equipped with the useful water tray, removable and completely realized in stainless steel AISI 304.
